

RESIDENTIAL PROGRAMME

SELF-MANAGING LEADERSHIP

24-26 September 2024

**Find your purpose and define
the next chapter of your life**

In collaboration with Oxford Leadership

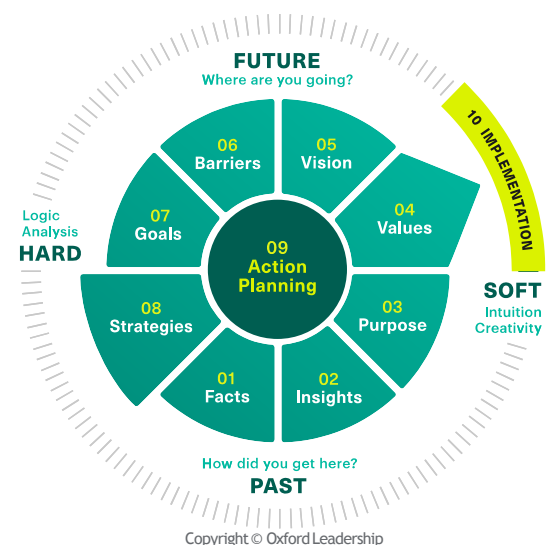

Are you ready to find your "why" and unlock the power of purpose in your professional and personal life?

Almost one million executives have already discovered their "why" through our Self-Managing Leadership (SML®) Programme. They are proof that it's possible to enjoy professional and personal success while having a positive impact on the world around you. Our 10-step model helps participants identify their purpose, values and vision in order to define the focus and character which define their leadership. Each participant will develop a 90-day action plan to focus on the few things which have the largest impact, on both their personal and professional development.

A powerful step-by-step framework is used to focus, change negative habits, make critical choices and bring plans to life. Participants learn how to transform at the individual, team and organisational level.

Harness the power of purpose in ten modules

Our proven 10-step programme gives you everything you need to find your purpose, identify your vision, and make it happen

How the SML® Programme will benefit you and your organisation

Through careful introspection and guided facilitation, you will:

- Identify your negative and positive patterns/habits and behaviour that are present in your life.
- Identify your purpose or that which gives meaning to your life.
- Create a future vision for your life in three key areas: your role as a leader, your role in your family/community life and your personal life.
- Recognise and put in place a plan to overcome barriers which are holding you back from becoming all that you can be.
- Emerge with concrete strategies for managing yourself, your relationships, your career and your organisation better.
- Leave with a framework for self-management and personal accountability and with a plan for embedding your learning in practice after the course.

What people say about the SML® Programme

“This course was a chance for me to re-think who I am and how I want to lead. I developed a clear beacon for my personal and professional development through the creative exercises and appreciated the opportunity to travel this journey with inspiring peers.”

“It is a great opportunity to know and work on our strengths and weaknesses in order to develop a plan. I truly believe that deep change occurs only by example, and we as executives must lead with examples and actions rather than words.”

“This course gave insights since it opened up a possibility to go inside myself and start a structured process both privately and professionally. We got great guidance throughout the process and worth while tools for taking the nextstep.”
